Four Kinds of Disciples

Trainers

Share the gospel, start new groups and train them to repeat the process

Kingdom growth by multiplication

The VISION Barrier

inward focus – lack of generational foresight – too much control

Starters

Share the gospel, start new groups

Kingdom growth stops at 2nd generation

The PERMISSION Barrier

no permission to start new groups – pass disciple-making off to "specialists"

Witnesses

Share the gospel, take new people to existing groups

Kingdom growth by addition only

The CONFIDENCE Barrier

afraid to witness - make excuses - pass evangelism off to "gifted people"

Attenders

Don't share, don't start groups, don't train others

No kingdom growth
